PROJECTS

ASSIGNMENT MANAGEMENT SYSTEM, *html, css, javascript, bootstrap, and python with Django.*

- Developed an Assignment Management System to streamline task scheduling and assignment distribution for teachers.
- Enabled teachers to assign tasks with defined start and end dates, while students could update progress in real-time.
- Implemented functionality for teachers to track assignment status and generate evaluation reports automatically.

PERSONAL PORTFOLIO, *html, css, javascript, bootstrap, and php.* 🌐

- Designed and developed a personal portfolio to highlight professional achievements, projects, and core competencies.
- Prioritized user-friendly navigation and clean layout to enhance overall user experience and engagement.
- Planned future enhancements including a blog section for knowledge sharing and integration of social media links to expand professional reach.

CERTIFICATES

- Web development using python with django by Techpile technology pvt ltd.
- Java programming by Internpe pvt ltd.
- Data Structures by Coursera.
